

The 3E Program: English, Employability, Entrepreneurship

Don't Step into the Future Unprepared. **Ignite the 3E Program**
Grades 8–12: Building Confidence, Clarity, and Career Readiness

Old methods fall short. We teach what the future demands.

That's where 3E comes in.

- **English: Build language skills that help you speak up, stand out, and move forward from everyday conversations to professional emails.**

Modules on real-world scenarios, articulation, vocabulary, grammar, and written formats.

- **Employability: Master 21st-century workplace skills from digital tools and career planning to team communication, job readiness, and financial literacy.**

Modules on digital literacy, career development, diversity, resume and interview prep, and financial awareness.

- **Entrepreneurship: Learn how to identify opportunities, build business plans, and pitch ideas to create your own path, even before college.**

Modules on the 4Ps, business model development, customer targeting, funding, and risk awareness.

Schools Across India Are Making the Shift. Here's Why:

- Aligned with NEP 2020 and future-readiness goals
- Backed by research, psychometrics, and industry insights
- No added burden on school faculty
- Career-ready portfolios for every student
- Strengthens career guidance and boosts parent trust
